Master Montgomery Surgeon

The Directors of the Chest having reason to believe that many persons have obtained Pensions for Ruptures, which they had ~~up on~~ before entering into His Majesty's Service; the Surgeons are desired in all cases for the above complaint, to be careful in examining whether such injury has recently happened, and if otherwise, not to grant a Smart Ticket for the same.

The Directors likewise request the Captains of His Majesty's Ships will not sign Smart Tickets for slight hurts or wounds, or accidents occasioned by drunkenness; and that they will cause regular Smart Tickets to be filled up, signed and delivered to the persons strictly entitled thereto, as soon as they are cured on board, or before being sent from the Ship for cure, and not afterwards; unless in cases where it shall appear that the wound or hurt has proved of more serious consequence than was at first apprehended.
