The system adopted in the Government Schools of this Colony corresponds in its main features with the national system of Ireland. Certain modifications however have been introduced with the view of meeting the special requirements and circumstances of the colony.

The primary object of the Government has been to secure, on the basis of religion, a sound and serviceable edu-

cation for the children of the middle and lower classes, without any distinction of religious sect; and of which all can avail themselves without fear of interference with their religious convictions.

The proceedings of each day are commenced with general instruction from the Scripture Lesson Books, in which the Ministers of all religious denominations co-operating with the Board are invited to take part as often as they please, stipulating only that they abstain from alluding to those differences of opinion which unhappily divide the Christian Church, but no children are required to attend without their parent's sanction.

Not less than five hours of every school day are devoted to secular instruction.

The General Board have expressed their willingness to facilitate to the utmost of their power any arrangements Ministers of religion may wish to make for the special instruction of the children of their own denomination in the school room at any hour of the day, before or after the time set apart for general religious and secular instruction.

For the purpose of facilitating such special instruction, the Board are willing to supply Bibles on the application of any Minister, co-operating with the Board.

The increasing number of pupils attending the Government Schools affords every reason for supposing that the system meets with the general approval of the public.

ROMAN CATHOLIC SCHOOLS.

Perth—There are three Female Schools and one Infant School under the superintendence of the Sisters of Mercy, one for the education of young ladies, and one middle school; the other is open gratuitously to girls of all denominations. Girls and boys under seven years of age are admitted to the infant's school; attached to the Convent there is also an institution for native girls. Number of pupils attending the several schools—270.

Perth boy's school—Principal teacher—Rev. A. Bourke.
No. of pupils—40.

Fremantle—There are three schools under the superintendence of the Sisters of St. Joseph, to which children of every denomination are admitted. No. of pupils—240.

Fremantle boy's school—Master—Mr John Rooney.

PUBLIC INSTITUTIONS, SOCIETIES, &c.
MINES AND MINING.

WESTERN AUSTRALIAN MINING ASSOCIATION. (LIMITED.)

Capital £50,000 in 10,000 Shares of £5 each.

Chairman - Mr G. Shenton. Directors—Messrs. G. W. Leake, C. A. Manning W. Padbury, W. L. Brockman, F. D. Wittenoom, and L. Samson. Solicitor—Mr G. W. Leake. Secretary Mr R. Sholl.

This Company is in possession of several Mineral Sections of great promise, but at present is only working the Wanerenooka Mine.

The Wanerenooka Mine during the last twelve months has been again worked with a small body of men--and the Mine having now sufficient steam power to keep the water under, the main shaft has been sunk to a greater depth, and the drives much extended. The Mining Captain speaks in the highest terms of the favourable appearance of the lode; during the last few months they have again commenced to raise ore of superior quality and about 250 tons have been shipped.

WHEAL FORTUNE MINING COMPANY.

Directors---Messrs. D. Scott, L. Samson, J. Harding, and A. Rosser.

This Company is now working the Wheal Fortune, Wheal Virgin, and Wheal Samson. The Wheal Fortune during the last twelve months has yielded large quantities of Lead and Copper Ores, and has shipped 400 tons leaving large quantities at grass, and the Mining Captain's reports are most favourable for its future working; the other two Mines are having shafts sunk upon them.

GWALLA MINE.

This Mine has been much developed of late; several shafts have been sunk, but although there is an abundance of ore visible of excellent quality, the water in each has prevented it being raised. An engine and pumps are now on their way for this Mine.

YANGANOOKA COPPER MINE.

This Mine is still suspended, waiting the introduction of pumping machinery.

GALLIBREAH MINE.

The proprietor of this Mine has continued to employ a few men during the year; of late they have been raising ore of very superior description, and 40 tons have been shipped.

WHEAL ABRINO MINE.

This Mine is situated on the Upper Irwin, and gives promise of its being a most important Mine, the ore cropping out in large quantities on the surface composed, of red oxide, green and blue carbonates. Specimens forwarded to England having been well reported on arrangement will be made at once by the proprietors to commence the working of the lodes.

In addition to these Mines which are now opened, several purchases have been made of Mineral Sections, and many give promise of having large deposits of copper and lead ores.

SWAN RIVER MECHANICS' INSTITUTE.

Patron—His Excellency the Governor.
