Directory of Cattle Earmarks

This directory contains a list, arranged alphabetically, of all the owners of Registered Cattle Earmarks, registered under "The Brands Act, 1904," up to 31st December, 1925.

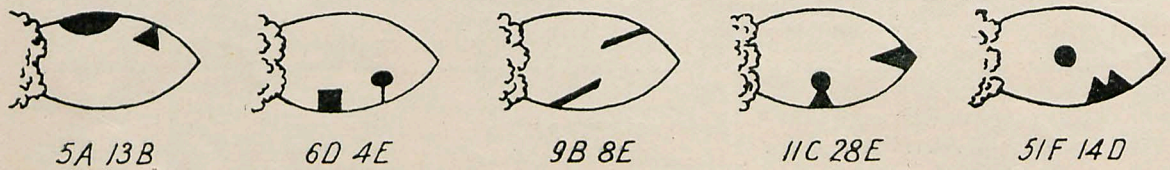

Earmarks registered for cattle under the Brands Act, 1904, can be registered for either the "near" or "off" ear. The certificate of registration clearly indicates the ear to be marked, and shows the positions in which such marks shall be placed in the ear, which in every case must be in accord with the diagram shown on the certificate.

All marks must be made by pliers, cutting or slicing being illegal.

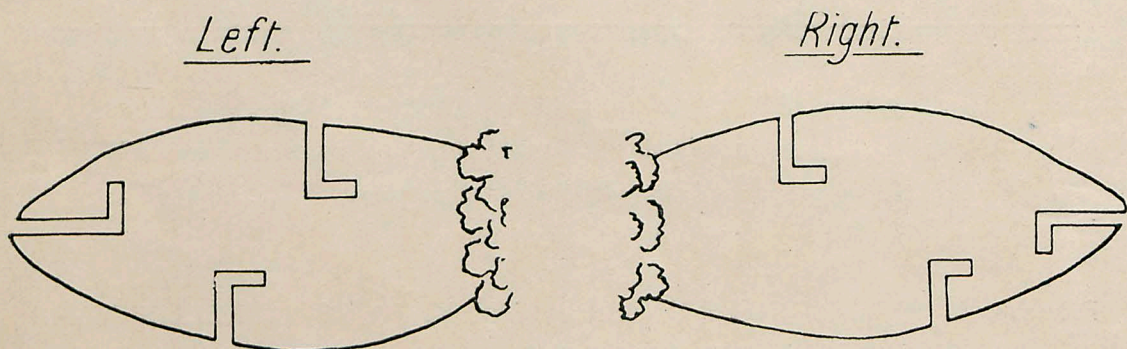

The earmarks shown herein are coded, each symbol or pliers is numbered, and these will be found in the index of registered marks. The position of such mark in the ear is indicated by letter, and when placed in the ear should correspond to the positions shown on the undermentioned diagrams of "near" and "off" ear.

A few examples of the combinations registered are shown hereunder:

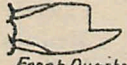

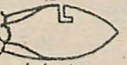

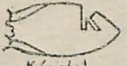

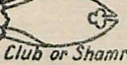

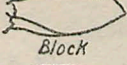

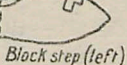

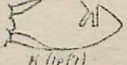

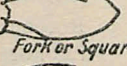

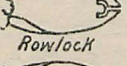

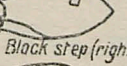

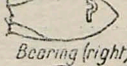

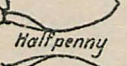

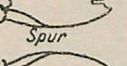

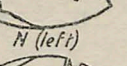

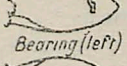

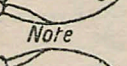

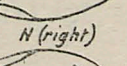

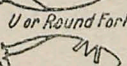

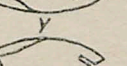

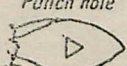

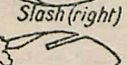

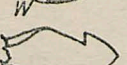

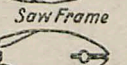

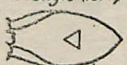

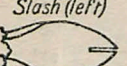

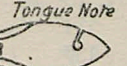

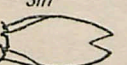

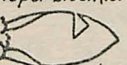

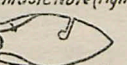

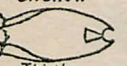

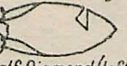

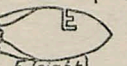

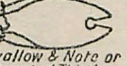

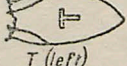

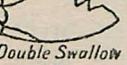

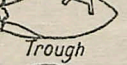

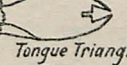

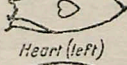

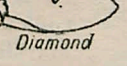

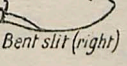

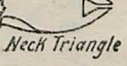

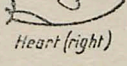

The combination A and D, also C and B and C D, are never registered. Some of the marks are right- and left-hand marks. Take the mark **L** for example: whether on the front or back of the ear, in either case the right-hand mark is placed in the ear so that the base or angled portion points towards the tip of either ear; and in the left-hand the same portion would point in the opposite direction, i.e., towards the root of the ear, as shown hereunder:—

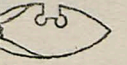

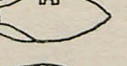

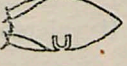

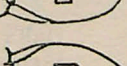

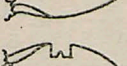

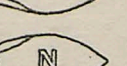

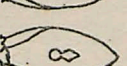

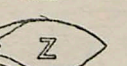

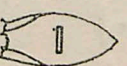

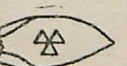

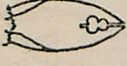

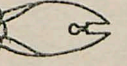

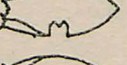

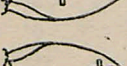

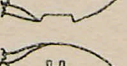

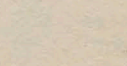

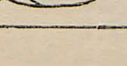

This principle applies to all right- and left-hand marks.

Our Mills are now fitted with the latest
Springless Oil Pump

They are
Easier
to Erect

This Mill will carry a sufficient supply of oil for twelve months' continuous working, and can be FITTED TO OLD TOWERS, thus showing a considerable saving in cost.

Get in touch with us at once, advise us the pattern of your old Mill, and give the height of the tower. We will be pleased to advise you how to make the best use of your old materials.

We make up Several Different Types of Mills, all of which are kept up-to-date.

DOUBLE GEARED, AUTO OILED
METTERS' LTD.

847-851 HAY STREET, PERTH

Metters' "MINOR" Steel Windmills

Fitted with 5ft. Wind Wheel and 15ft. Standard Galvanised Steel Tower.

A most compact and smooth-running Geared Windmill, eliminating the serious jerking which obtains in most all small mills that are direct acting.

The **Main Casting** is a one-piece casting, having the pipe barrel cast in same.

The **Pitman** is of mild steel, and can be adjusted to give 3½in. or 4½in. length of stroke; is fitted into gear wheel with gun metal cylindrical bushing; both ends are fitted with screw-down grease cups.

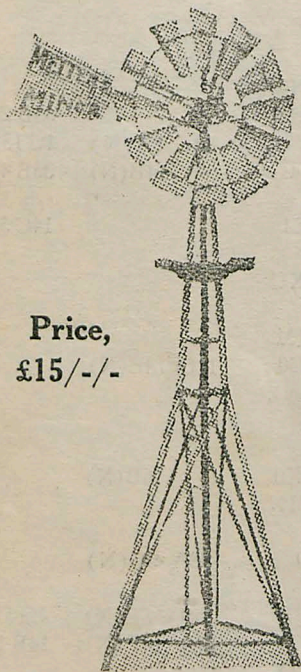

Anchor Posts are of galvanised steel, with cast-iron foot plates, and should be buried in the ground to within 3in. or 4in. of the top.

The **Minor** is a well-finished Mill, and very careful tests have been made of all parts.

COPY OF ONE OF MANY TESTIMONIALS RECEIVED

Range Station, Onslow,
31st March.

Dear Sirs,—

With regard to the "Icy-Ball" purchased from you, you will be pleased to hear that we are now getting extremely good results from it.

We are now getting all the Ice we require and have kept meat perfectly fresh for five days. It would have undoubtedly kept it still longer if required.

We are, yours faithfully,

(Signed) GREENWAY BROS.,
