Introduction

30...Letter 00 000 1955

I wrote this letter to my mother in Poland sometime in the first three months of 1955.

I tell my mother that I am writing this letter in a hurry and that I include two scarves.

I tell her that I had received her letter and the photos of the snow.

Snow falls in Poland towards the end of December until March.

My mother asked me to send medicine for a friend.

I tell her that the medicine that she wants for her friend would add up to the cost of eight pairs of stockings.

I tell her that I will send stockings and that she should sell them to buy the medicine.

I say in this letter that I will send medicine for her.

I end with love and kisses
