Introduction

32...Letter 00 000 1955

I wrote this letter to my mother in Poland from Perth after Easter in 1955.

The letter includes a note to my brother Joseph. I say that I had sent him biros by airmail.

I also say that if he had not received the biros it was because someone had stolen them.

I say that the biros must have been stolen in Poland not in Australia.

I tell my brother that I wish he were here in Australia.

I tell my mother that I have sent coupons so that she can buy postage stamps and I ask is she had received two pairs of stockings.

I also tell her that Peters mother wrote that she will go to visit her.

I say that I am writing this letter with a biro.
