Introduction

35...Letter 00 000 1957

I wrote this letter from Wittenoom towards the end of 1957.

I begin the letter by asking about my mother's health.

I tell her that its very hot in Wittenoom and people walk around as if drunk.

I tell her that I sent medicine but that I don't know if she received it.

I tell my mother that Peter's sister Zofia is coming to Australia.

I also say that Zofia will go to see her before she leaves Poland for Australia.

I tell my mother that I am very busy because I am sewing fancy dresses for

my daughters for the end of the school year fancy dress ball. I tell her I will send photos of Krystyna and Susan dressed in their costumes.

I also tell her that I will also send a parcel through London and I end the letter with a lipstick kiss.
